

CURRICULUM VITAE

Personal data:

Name: Majida Mahmood Hasan
Nationality: Jordanian
Date of birth: September;1;1967
Place of birth: Baghdad
Marital status: Married
Telephone: (Mobile) 00962796264061,00962777723405
E-mail: majda_mh_67@yahoo.com

Education:

Baghdad University

-Degree: B.Sc. In Biological Sciences Specializing in Microbiology(immunology) \college of sciences in the second semester 1988-1989.

Overall average: (77.56%)

-Degree : M.sc in microbiology (Immunology) / College of sciences in the second semester 1994-1995 .

Overall average: (78. 63%).

Thesis:Serological study on local isolates of encapsulated *staphylococcus aureus* &their sensitivity to antibiotics..

Al Mustansiriya University

Degree: PhD.in Microbiology (Immunology)/ college of medicine 2000.

Overall average: (85.87%)

Thesis:Familial study on Iraqi patient swith systemic lupus erythematosus:Immunological profile.

Special Courses

Advanced microbiology, Microbial physiology, Advanced Immunology, Parasitology, medical virology, advanced biochemistry, periodicals, clinical bacteriology, environmental science.

Experience:

- 1990 – 1992: Member and Technician in clin-lab dep./ Pharmacy college/ Baghdad
1995-2000: Partial time Lecturer in college of Pharmacy / Baghdad University
- 2000 – 2002: member and Lecturer in college of pharmacy / Baghdad University.
 - Registration of clinical-laboratories department / college of pharmacy / -Baghdad University.
 - Lecturer in Industrial Pharmacy College/ AL-Mustansiriyah University.
 - Supervision of medical laboratories in medical city / Department of bacteriology And Immunology/ ministry of health.
 - Consultant in the Institute of antisera and vaccines / ministry of health.
- 2008-2009: lecturer & member in department of sciences college of basic education\diyala university.
- 2009- Post doc. Suppatecle in the university of jordan, Biology department (working in tumor immunology & monoclonal antibodies).
- **Professional teaching experiences:**
- **Undergraduate:**
 - Human biology and histology for 1st year.
 - Basic and clinical Immunology for 4th year students.
 - Medical bacteriology for 2nd year students.
 - Virology for 2nd year students:

college of pharmacy / Baghdad University.

College of Industrial pharmacy / Al-Mustansiriya University.

- parasitology for 3rd year students\diyala university.

- **Postgraduate:**

- Advanced course in Immunology for:

 - Diplomat Student in clinical Laboratory Sciences.

 - Msc. Students in clinical pharmacy .PhD Students in clin Pharmacy (advance.

- Virology for:

 - Diplomat Students in clin. Lab. Sciences

 - Msc. Students in clinical pharmacy department.

- **Conferences**

- the 6th congress of Iraq society for rehabilitation, arthritis and disabled welfare.Oct. 10-12/2000.
- The first national conference for internal medicine and the 12th scientific annual conference of the college of medicine Baghdad University. Nov. 21-23/2000
- 5th Arab and third Syrian Congress for rheumatology and rehabilitation. Sep.19-22/2001.Damascus. Syria.

- 3rd Jordanian and 2nd Arab Congress in physical medicine and rehabilitation. Jordan. 30/3-1/4 /2002
- 5th Congress for college of pharmacy / Baghdad University. May. 7-8/2002.
- The 2nd American Association for Cancer Research (AACR) dead sea international conferences on ; advances in cancer research, from laboratory to clinic. March 7-10, 2010.

Publication

- lymphocytotoxic antibodies among Lupus Iraq Patients and their relatives. participated in 5th Arab and third Syrian Congress for rheumatology and rehabilitation Sep. 19-22/2001. Damascus. Syria.
- Immunological makers and clinical expression of lupus Iraqi Arab patients. participated in the first national conference for internal medicine and the 12th scientific annual conference of the college medicine Baghdad. Nov. 21-23/2000.
- Tissue typing and immunology profile of SLE patients and their relatives. Participated in the 6th congress of Iraqi society for rehabilitation, Arthritis and disabled welfare. Oct. 10-12/2000.

Job Description

- Tissue typing (HLA) and PBMCs isolation.
- Preparation of monoclonal antibodies.
- Protein Purification.
- Cytotoxicity assay
- Immunodiffusion.

- ELISA.
- Protein determination, SDS and native PAGE.
- Antisera preparation.
- Animal cells cultivation and maintenance.
- Taking care of laboratory animals (mice, rats, rabbits).

❖ **Courses:**

- International Computer Driving License (ICDL).
- Teaching methods for university students.
