Summary of the research \Bishet Village:

The study in social ,economic and cultural status.

Bishet village contribution, It is one of the villages where existed before Islam ,period like many of old villages, where evolved in the Islamic eras especially in Alabasi era, and developed in economic and social life and ahead of that scientific life.

Where ever, It gave a lot of scientists who have contributed in the development of Islamic civilization and presented flags in the poetry linguistic, grammar interpretation, palaver and doctrine by it sons.

In split of that, the studies stayed oblivious of it for so long, and didn't give for it academic study of present .

After extensive research for the research I reached to several results, most important results are:

1-The location 2-economically source.

Finally: The Bishet village birth many of the famous scientists particularize in many aspects.
