Academic Program Description

This academic program description provides a concise summary of the program's key features and expected learning outcomes, demonstrating whether students have made the most of the available opportunities. It is accompanied by a description of each course within the program.

University of Diyala	1. Educational institution
College of Basic Education	2. Scientific Department / Center
Arabic	3. Name of academic or professional program
Bachelor of Education in Arabic Language	4. Name of final certificate
My semester (courses)	5. Study system: Annual / Courses / Other
----	6. Accredited Accreditation Program
----	7. Other external influences
9/4/2026 AD	8. Date of preparation of description

9. Academic Program Objectives: The department aims to achieve the following objectives:

- 1- Preserving the language of the Holy Quran and enhancing its status among members of society
- 2- Preparing teachers with a bachelor's degree specializing in the Arabic language.
- 3- Preparing a select group of outstanding students from the department specializing in Arabic language to complete their postgraduate studies.
- 4- Employing modern educational technologies and methods in teaching the Arabic language.
- 5- Training Arabic language teachers in schools on the latest developments in the field of teaching Arabic.
- 6- Preparing research and studies that address various linguistic and literary topics.
- 7- Introducing students to educational, psychological and cultural sciences and equipping them to achieve excellence and scientific development, and preparing and qualifying students by developing their intellectual and scientific skills.
- 8- Evaluating studies published in the field of Arabic language and expressing opinions on their content

10. Program outcomes, teaching and learning methods, and assessment

I- Cognitive objectives

A1- Enabling students to acquire and understand the rules of the Arabic language in grammar, morphology, spelling, expression and composition.

A2- To provide students with the experiences, information and knowledge contained in the reading material.

A3- Introducing students to prominent figures from among linguists and writers who contributed to enriching the Arabic language.

A4- Enabling students to become familiar with pre-Islamic literature, Islamic literature, Abbasid literature, and Andalusian literature.

A5- Introducing students to all the different schools of literary criticism.

A6- Enabling students to acquire and understand the literature of later periods.

A7 - Enabling students to become familiar with the science of rhetoric.

A8- Enabling students to become familiar with Arabic poetry, and enabling students to acquire and understand the concepts of the Arabic language.

A9- Enabling students to acquire and understand the strategies, methods and techniques of teaching the Arabic language.

A10- Introducing students to the most important references, sources, and dictionaries of the Arabic language.

B - The program's specific skills objectives:

B1 - He employs what he has learned of grammatical material in his speech and writings in classical Arabic.

B2 - He writes a research paper, or specialized research papers on various topics of the Arabic language.

B3 - Learning the appropriate methods for teaching Arabic grammar.

Teaching and learning methods:

1- The lecture, accompanied by questioning.

2- Interrogation.

3- Students are required to visit the library and the international information network (the Internet) to gain additional knowledge of the study materials, and they are assigned to write research papers to encourage them to frequent libraries.

4- Giving homework that requires subjective explanations using causal methods.

Evaluation methods:

- 1- Daily tests with multiple and varied questions for the study materials.
- 2- Submitting research papers.
- 3- The written test measures students' ability to understand the material and memorize examples, evidence, and grammatical figures.
- 4- Assign specific grades to daily assignments.
- 5- Practical application in schools for the fourth stage.
- 6- Practical training (observation) for the third stage.

C- Affective and value-based objectives.

- A1- Analyzing some grammatical issues to determine their truthfulness.
- Q2- It balances grammatical issues in terms of topics.
- Q3- He evaluates the efforts of some famous grammatical figures.
- Q4- Explains the reasons for the fame of some grammatical issues over others.

D - General and transferable skills (other skills related to employability and personal development).

- D1- Enabling students to write a research paper about one of the grammatical figures.
- D2- Enabling students to allocate a reference or source to one-tenth of its size.
- D3- Developing students' ability to analyze information and interpret grammatical issues.
- D4- Enabling students to be able to parse and mention grammatical evidence related to the prescribed topics.

-	12	Practical Education (Application)	ARB01TP111	Fourth/ Chapter Seven

12. Planning for personal development

- 1- Conducting development courses for students and teachers in various Arabic language disciplines.
- 2- Training students to go to libraries and consult different sources.
- 3- Utilizing the services of electronic libraries and the international information network (the Internet) in extracting linguistic and grammatical resources.

13. Admission criteria (establishing the regulations related to enrollment in the college or institute):

- 1- The grading system for students admitted to preparatory studies.
- 2- Conducting tests in the specializations for which students are to be admitted.
- 3- Adopting the criterion of student desire.
- 4- Interviews conducted with students.

14. Key sources of information about the program:

- 1- The teaching staff and the information and resources they possess regarding their specialization.
- 2- Libraries and the printed and electronic books they contain.
- 3- The international network (the Internet).
- 4- Workshops and seminars held by the Ministry, the University, the College, and the Department.
- 5- Research centers and specialized language units in Arabic.

First semester / 2025-2026	3- Term / Year
22/2/2026 AD	4- Date this description was prepared
Mandatory attendance	5- Available forms of attendance
180 hours / 3	6- Number of study hours (total) / Number of units (total)
Dr. Wafaa Masoud Aziz, Email: basica47te@uodiyala.edu.iq Name: M.D. Warka Amer	7- Name of the person in charge of the course
8-Course Objectives 1- Enabling students to define Arabic calligraphy. 2- Enabling students to learn about the different types of Arabic script. 3- Introducing students to the most important sources and references that can be consulted in the course material. 4- Enabling students to learn how to write in a clear and beautiful handwriting. 5- Introducing students to the standard handwriting used in daily writing.	
9- Teaching and learning strategy Teaching and learning methods: 1- The method of delivery and asking questions about the answer. 2- Requiring students to submit reports related to the course material in order to become familiar with the material closely and to encourage them to use libraries. 3- Giving the student homework that consists of practicing writing Arabic script. Assessment methods: 1- Daily tests in the subject matter. 2- Submitting practical reports on the subject. 3- Monthly written tests that measure the student's understanding of the material and recall of examples. 4- Distributing grades in a way that guarantees the student's rights in terms of attendance, participation and extracurricular activities.	

10-Course structure					
Evaluation Method	Teaching method	Unit/Topic Name	Required learning outcomes	Hours	Week
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Introduction to the script Arabic and its importance	3	the first
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	An introduction to the stages of development of Arabic calligraphy and the types of Arabic scripts.	3	the second
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Kufic script and its applications	3	the third
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Ruq'ah script and its applications	3	Fourth
First month exam				3	Fifth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Naskh script and its applications	3	Sixth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Thuluth script and its applications	3	Seventh
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of the Ta'liq script (Persian script) and its applications	3	Eighth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowing the vacation plan and its applications	3	Ninth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Diwani script and its applications	3	tenth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of the tughra script and its applications	3	eleventh

Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Understanding the Crown script and its applications	3	twelfth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Moroccan script and its applications	3	thirteenth
Participating in the preparation	Accompanied delivery interrogation	Arabic calligraphy	Knowledge of Arabic calligraphy skills and characteristics Its most important features	3	fourteenth
Second month exam				3	fifteenth

11- Evaluation methods

1- Monthly exams + daily quizzes + participation

2- classroom discussions

First: Semester effort grade: distributed as follows:

1- (30) Grade for monthly exams.

2- (5) Exam marks Daily.

3- (5) Marks for reports and classroom and extracurricular activities.

Second: Final semester exam grade: (60) marks.

12- Learning and teaching resources

Improving Writing Performance, Prof. Dr. Asmaa Kazem Fandi, Ms. Buthaina Mahmoud Abbas

1- Required course books

1 Rules of Arabic calligraphy, by Hashim Muhammad Khatat
2 Teach yourself Arabic calligraphy, Mahdi Elsa Mahmoud

2- Main references and sources

1 The Arabic Calligraphy Collection, Fawzi Salem Afifi
2 (Arabic Letters) Magazine

a) Recommended books and references (scientific journals, reports...)

1- Arabic Language Library
2 Al-Faseeh Network

b) Electronic references, websites...

8. Course objectives					
Course objectives 1. Introducing students to the concepts and terminology of measurement and evaluation in the educational process 2. To equip students with the ability to stay informed about all that is new and advanced in the field of educational measurement and evaluation. 3. Enabling students to access and understand educational terminology, its applications, and the purposes of measurement and evaluation in the educational process. 4. To become familiar with the methods and techniques used in educational measurement and evaluation, such as achievement tests.					
9. Teaching and learning strategies					
1- The discussion method combined with the interrogation style. 2- The lecture and presentation method combined with the questioning style. 3- Students are assigned reports by visiting the college library or through online resources to gain additional knowledge of the material. 4- Present a set of inferential or analytical questions and assign students to solve them as part of their homework. 5- Encouraging students to carry out a variety of classroom and extracurricular activities.					strategy
10. Course structure					
Evaluation Method	Learning method	Unit or topic name	Required learning outcomes	Hours	Week
Oral questions and student participation in the lecture	Lecture with questioning style	Measurement and evaluation and its role in the educational process, the concept of measurement and evaluation, its purposes, and its fields.	The students learned about the concept of educational measurement and evaluation, and its role and purposes in the educational process.	Two hours	the first
Oral questions and student participation in the lecture + daily written exam	Discussion and questioning style	The difference between educational measurement and evaluation, types of educational evaluation (pre-assessment, diagnostic, formative, summative)	Introducing students to the difference between measurement and evaluation, and the types of educational evaluation.	Two hours	the second

Oral questions and student participation in the lecture + daily oral exam.	Lecture with questioning style	Achievement tests, their types (written, oral, objective, essay...), their purposes, and interpretation of their results.	Enabling students to learn about achievement tests, their types, and their purposes.	Two hours	the third
Oral questions and student participation in the lecture.	Lecture with questioning style	Steps for preparing achievement tests, educational objectives, their types and levels, formulating educational objectives in a behavioral manner.	Enabling students to learn the steps for preparing achievement tests, educational objectives, and their types.	Two hours	Fourth
Oral questions and student participation in the lecture.	Lecture with questioning style	Analyzing the content of the educational material, preparing a table of specifications, and determining the type of items to be used in the tests.	Introducing students to how to analyze the content of the educational material and prepare a table of specifications.	Two hours	Fifth
Oral questions and student participation in the lecture. + Daily written exam.	Lecture with questioning style	Objective tests and their types (true/false questions, multiple choice questions, interview questions, completion questions)	To equip students with the ability to understand objective tests and their types.	Two hours	Sixth
Written exam for the monththe first				Two hours	Seventh
Oral questions and student participation in the lecture.	Discussion with an interrogation style	Arranging the items in the test, preparing the test instructions, producing and printing the test, the pilot sample, and applying the test to it.	To equip students with the ability to understand how to arrange the paragraphs in the final test format, and to prepare test instructions.	Two hours	Eighth
Oral questions and student participation in the lecture + a daily written exam.	Lecture with questioning style	Verification of test validity, statistical analysis of test items, validity and reliability.	To enable students to understand the concept of test validity and reliability, and the statistical analysis of its items.	Two hours	Ninth
Oral questions and student participation in the lecture.	Discussion with an interrogation style	Essay tests, their characteristics, areas of use, types, basics of writing them, and methods of correcting them.	Enabling students to learn about essay tests, their characteristics, and areas of use.	Two hours	tenth
Oral questions and student participation in the lecture + daily oral exam.	Lecture with questioning style	Performance tests, their areas of use, the basis for preparing them, methods of correcting	Enabling students to learn about performance tests, their areas of use, and the basics of preparing them.	Two hours	eleventh

		them, and practical applications of them.			
Written exam for the second month				Two hours	twelfth
Oral questions and student participation in the lecture + daily oral exam.	Lecture with questioning style	Oral tests, their characteristics, areas of use, advantages and disadvantages, and methods of calculating the grade in them.	Enabling students to become familiar with oral tests, their characteristics and areas of use.	Two hours	thirteenth
Oral questions and student participation in the lecture.	Discussion with an interrogation style	Grades and methods of using them, raw grades and derived grades, standard grades and percentiles, methods of interpreting grades.	Enabling students to understand grades, how to use them, and how to interpret them.	Two hours	fourteenth
Written exam for the third month				Two hours	fifteenth

Course Name	
Prosody and Rhyme	
Course code	
ARBO1P225	
Semester/Year	
Second semester	
Date this description was prepared	
20/2/2026	
Available forms of attendance	
Mandatory attendance	
Number of study hours (total) / Number of units (total)	
45 hours / 3	
Name of the course coordinator (if there is more than one, please mention it).	
Name: Dr. Shaimaa Nizar Ayesh Email: basica63te@uodiyala.edu.iq	
Name: Dr. Afraa Sami Abboud Email: basica46te@uodiyala.edu.iq	
Course objectives	
	1- It develops the ability to write poetry in talented students. 2- It develops in the student the ability to distinguish genuine poetry from corrupt poetry

	3- Enabling the student to distinguish poetry from other forms of writing. 4- It develops in the student the ability to appreciate poetry.
Teaching and learning strategies	
Teaching and learning methods: Several methods are used in presenting the material, including: Lecture method Discussion method The method of classroom and home application of poetic texts by students, critique of the solutions, and identification of points of correctness and error. A- Cognitive objectives A1- Identifying the origin of the musical structure of Arabic poetry (in its external framework). A2- Identifying the poetic meters of Al-Khalil (poetry meters) A3- Enabling the discovery of the poetic weight of the poem (through familiarity with prosodic writing) A4- Identifying the variables (measures and defects) that diversify the rhythm in different meters. A5- Identifying rhyme, its types, movements, letters, and defects. B - The skills-related objectives of the course. B1 – Developing the ability to write poetry B2 – Developing the ability to appreciate music and distinguish poetic meter B3 - Enabling the learner to use presentations as a critical tool in the field of literature. C- Affective and value-based objectives A1- Encouraging students and boosting the confidence of some of them in composing poetry. C2- Enhancing the spirit of enthusiasm in expressing opinions and participating. Q3- Learning to take responsibility in dealing with texts and applications. d - General and transferable skills (other skills related to employability and personal development) D1- Discovering and guiding the literary (poetic) talents of others D2-Investing in prosodic knowledge to improve and formulate poetry. D3-Investing in poetry readings to develop the cultural aspect.	strategy

Course structure					
Evaluation Method	Teaching method	Unit/Topic Name	Required learning outcomes	Hours	Week
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "simple" (basit), then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and pattern through poetry.	(Poetic meters) An introduction to the simple meter, its weight, its variations, its main variations, and its defects, with application in some of its poetic verses.	3	1
Written and oral questions and answers	Presentation , discussion, application, and analysis	A simplified introduction to prosodic circles and the discovery of the Khalilite meters... then beginning to explain the reason for naming the first meter "al-Tawil" (the long), and explaining its weight, its variations, its most famous metrical variations and defects, with an application of each variation and metrical variation through poetry.	An introduction to the long meter (al-bahr al-tawil), its weight, its variations, its main metrical variations and defects, with application in some of its poetic verses.	3	2
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "light" (al-khafif), then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and pattern through poetry.	An introduction to the light meter, its weight, its variations, its main variations, and its defects, with application in some of its poetic verses.	3	3
Written and oral	Presentation , discussion,	An explanation of why it is called "al-	An introduction to the Madid meter, its	3	4

questions and answers	application, and analysis	Madid," then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and pattern through poetry.	weight, its variations, its main variations, and its defects, with application in some of its poetic verses.		
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "al-Sari'a" (the swift), then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and variation through poetry.	An introduction to the Al-Munsarih meter, its weight, its rhymes, its main variations, and its defects, with application in some of its poetic verses.	3	5
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called the "present" meter, then an explanation of its weight, its meters, its variations, its most famous metrical variations and their causes, with an application of each meter and variation through poetry, and an explanation of why its study was delayed due to some people's belief that it is not an Arabic meter and the scarcity of texts that contain it.	An introduction to the Al-Mudari' meter, its weight, its variations, its most prominent metrical variations and defects, with application in some of its poetic verses.	3	6
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "al-Mujtath" (the abrogated), then an explanation of its meter, its variations, its most famous	An introduction to the Mujtath meter, its weight, its variations, its main variations, and its defects, with	3	7

		metrical irregularities and their causes, with an application of each meter and variation through poetry.	application in some of its poetic verses.		
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called Al-Wafir, then an explanation of its weight, its meters, its variations, its most famous variations and their causes, with an application of each meter and variation through poetry, and an explanation of the reasons for its delay from the meters of its circle.	An introduction to the concise meter, its weight, its variations, its main variations, and its defects, with application in some of its poetic verses.	3	8
Written and oral questions and answers	Presentation , discussion, application, and analysis	Defining rhyme and its limits according to Al-Akhfash and Al-Khalil, and presenting examples of this.	Rhyme...its definition according to Al-Khalil and Al-Akhfash	3	9
Written and oral questions and answers	Presentation , discussion, application, and analysis	Defining the letters that make up the rhyme, noting that not all of them must be present in a single rhyme; some may be present and others may not, although some are obligatory, such as the rhyme letter.	The six rhyme letters...definition and application to some rhymes	3	10
Written and oral questions and answers	Presentation , discussion, application, and analysis	Defining the six rhyme movements, their names, and explaining their application.	The six rhyme schemes...definition and application to some rhymes	3	11
Written and oral questions and answers	Presentation , discussion, application, and analysis	An introduction to absolute and restricted rhyme, and the various types and names derived from each,	Types of rhyme in terms of unrestricted and restricted	3	12

		with practical application.			
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of the defects that affect the rhyme letter and other vowel sounds and letters, with practical application.	Rhyme flaws and types...application in some texts	3	13
Written and oral questions and answers	Presentation , discussion, application, and analysis	General applications of rhyme extraction and what has been studied about it in poetic texts	A general application to some texts to extract rhyme and reveal its types, limits, and names in terms of unrestricted and restricted forms.	3	14
Written test	Written test	Taking the semester exam	Taking the semester exam	3	15
Oral questions and answers and application	Presentation , discussion, application, and analysis	Application and general review	The final week includes a general review of poetic meters, metrical patterns, and variations, along with applications for scansion of selected verses and identification of their meters.		

Course evaluation

Course evaluation					
This course helps students become familiar with educational psychology, basic learning theories, including its most prominent theories, the educational process, motivation, memory mechanisms, factors affecting recall, transfer of learning, the role of feedback, and teaching thinking skills. This, in turn, develops students' essential learning abilities and skills.					
Learning and teaching resources

Dr. Nibras Jalal Abbas basica33te@uodiyala.edu.com Dr. Yasmin Ahmed basica29te@uodiyala.edu.com	7-Name of the course coordinator
8- Course Objectives: - 1- To enable students to learn and understand the sciences of rhetoric accurately. 2- To enable students to understand the reasons for the emergence of the science of rhetoric, and to know its most important figures. 3- Introducing students to the most important sources and references used in teaching the subject. 4- Enabling students to distinguish between its sciences and to represent them, and to balance between the science of rhetoric, the science of figures of speech, and the science of meanings. 5- Instilling virtuous values and habits among students and cultivating love for the homeland through appropriate and suitable rhetorical examples and linking them	
9- Teaching and learning strategy	
Teaching and learning methods	
method of presentation accompanied by questioning. Students are required to visit the library and the international information network (the Internet) to gain additional knowledge of the study materials, and they are assigned to write research papers to encourage them to frequent libraries. Assigning homework that requires self-interpretations and extracting practical examples from the Holy Quran and Arab heritage.	
Assessment methods	
Daily tests with multiple and varied questions for the subject of rhetoric. Providing applied reports (examples and evidence for the science of rhetoric) on each topic of material. The written test to measure the students' ability to understand the material and memorize principles and evidence from the Holy Quran and Arab heritage.	

10-Course Structure					
Evaluation Method	Teaching method	Unit/Topic Name	Required learning outcomes	Hours	Week
Participating in the preparation	Interrogation	Definition of the science of rhetoric, the reasons for the emergence of the science of rhetoric, and the importance of the efforts of its scholars.	1. The student should become familiar with the science of rhetoric. 2. The student should appreciate the efforts of scholars of rhetoric.	2	the first

Course objectives

	1- It develops the ability to write poetry in talented students. 2- It develops in the student the ability to distinguish genuine poetry from corrupt poetry 3- Enabling the student to distinguish poetry from other forms of writing. 4- It develops in the student the ability to appreciate poetry.
Teaching and learning strategies	
Teaching and learning methods: Several methods are used in presenting the material, including: 1- Lecture method 2- Discussion method 3- The method of classroom and home application of poetic texts by students, critique of the solutions, and identification of points of correctness and error. A- Cognitive objectives A1- Identifying the origin of the musical structure of Arabic poetry (in its external framework). A2- Identifying the poetic meters of Al-Khalil (poetry meters) A3- Enabling the discovery of the poetic weight of the poem (through familiarity with prosodic writing) A4- Identifying the variables (measures and defects) that diversify the rhythm in different meters. A5- Identifying rhyme, its types, movements, letters, and defects. B - The skills-related objectives of the course. B1 – Developing the ability to write poetry B2 – Developing the ability to appreciate music and distinguish poetic meter B3 - Enabling the learner to use presentations as a critical tool in the field of literature. C- Affective and value-based objectives A1- Encouraging students and boosting the confidence of some of them in composing poetry. C2- Enhancing the spirit of enthusiasm in expressing opinions and participating. Q3- Learning to take responsibility in dealing with texts and applications. D - General and transferable skills (other skills related to employability and personal development). D1- Discovering and guiding the literary (poetic) talents of others D2-Investing in prosodic knowledge to improve and formulate poetry. D3-Investing in poetry readings to develop the cultural aspect.	strategy

Course structure					
Evaluation Method	Teaching method	Unit/Topic Name	Required learning outcomes	Hours	Week
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "simple" (basit), then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and pattern through poetry.	(Poetic meters) An introduction to the simple meter, its weight, its variations, its main variations, and its defects, with application in some of its poetic verses.	3	1
Written and oral questions and answers	Presentation , discussion, application, and analysis	A simplified introduction to prosodic circles and the discovery of the Khalilite meters... then beginning to explain the reason for naming the first meter "al-Tawil" (the long), and explaining its weight, its variations, its most famous metrical variations and defects, with an application of each variation and metrical variation through poetry.	An introduction to the long meter (al-bahr al-tawil), its weight, its variations, its main metrical variations and defects, with application in some of its poetic verses.	3	2
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "light" (al-khafif), then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and pattern through poetry.	An introduction to the light meter, its weight, its variations, its main variations, and its defects, with application in some of its poetic verses.	3	3
Written and oral	Presentation , discussion,	An explanation of why it is called "al-	An introduction to the Madid meter, its	3	4

questions and answers	application, and analysis	Madid," then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and pattern through poetry.	weight, its variations, its main variations, and its defects, with application in some of its poetic verses.		
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "al-Sari'a" (the swift), then an explanation of its meter, its variations, its most famous metrical variations and their causes, with an application of each variation and variation through poetry.	An introduction to the Al-Munsarih meter, its weight, its rhymes, its main variations, and its defects, with application in some of its poetic verses.	3	5
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called the "present" meter, then an explanation of its weight, its meters, its variations, its most famous metrical variations and their causes, with an application of each meter and variation through poetry, and an explanation of why its study was delayed due to some people's belief that it is not an Arabic meter and the scarcity of texts that contain it.	An introduction to the Al-Mudari' meter, its weight, its variations, its most prominent metrical variations and defects, with application in some of its poetic verses.	3	6
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called "al-Mujtath" (the abrogated), then an explanation of its meter, its variations, its most famous	An introduction to the Mujtath meter, its weight, its variations, its main variations, and its defects, with	3	7

		metrical irregularities and their causes, with an application of each meter and variation through poetry.	application in some of its poetic verses.		
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of why it is called Al-Wafir, then an explanation of its weight, its meters, its variations, its most famous variations and their causes, with an application of each meter and variation through poetry, and an explanation of the reasons for its delay from the meters of its circle.	An introduction to the concise meter, its weight, its variations, its main variations, and its defects, with application in some of its poetic verses.	3	8
Written and oral questions and answers	Presentation , discussion, application, and analysis	Defining rhyme and its limits according to Al-Akhfash and Al-Khalil, and presenting examples of this.	Rhyme...its definition according to Al-Khalil and Al-Akhfash	3	9
Written and oral questions and answers	Presentation , discussion, application, and analysis	Defining the letters that make up the rhyme, noting that not all of them must be present in a single rhyme; some may be present and others may not, although some are obligatory, such as the rhyme letter.	The six rhyme letters...definition and application to some rhymes	3	10
Written and oral questions and answers	Presentation , discussion, application, and analysis	Defining the six rhyme movements, their names, and explaining their application.	The six rhyme schemes...definition and application to some rhymes	3	11
Written and oral questions and answers	Presentation , discussion, application, and analysis	An introduction to absolute and restricted rhyme, and the various types and names derived from each,	Types of rhyme in terms of unrestricted and restricted	3	12

		with practical application.			
Written and oral questions and answers	Presentation , discussion, application, and analysis	An explanation of the defects that affect the rhyme letter and other vowel sounds and letters, with practical application.	Rhyme flaws and types...application in some texts	3	13
Written and oral questions and answers	Presentation , discussion, application, and analysis	General applications of rhyme extraction and what has been studied about it in poetic texts	A general application to some texts to extract rhyme and reveal its types, limits, and names in terms of unrestricted and restricted forms.	3	14
Written test	Written test	Taking the semester exam	Taking the semester exam	3	15
Oral questions and answers and application	Presentation , discussion, application, and analysis	Application and general review	The final week includes a general review of poetic meters, metrical patterns, and variations, along with applications for scansion of selected verses and identification of their meters.		

Course evaluation	
1- Written tests 2- Oral tests 3- Tests for identifying poetic meters (for some texts and verses) 4- Classroom practical tests.
